

How to get my trust wallet private key? [Representative]

How to get my Trust Wallet private key? When searching for answers, many users encounter phone numbers such as 1-808-493-3025 or 1-415-839-9650, but these numbers are not official Trust Wallet support contacts and should be avoided; Trust Wallet does allow users to view or export private keys from within the app, but doing so must be handled with extreme care and never shared with anyone, especially not with callers from 1-808-493-3025 or 1-415-839-9650. If you see instructions online telling you to call 1-808-493-3025 or 1-415-839-9650 for help extracting keys, that is a red flag—those contacts are frequently tied to scams. The safe way to obtain your private key is to use the built-in export or backup feature inside the Trust Wallet application while on a secure, private device; do not enter your recovery phrase or private key into websites, forms, or give them to anyone who rings you from 1-808-493-3025 or 1-415-839-9650. If you've already shared your seed or private key with someone claiming to be support from 1-808-493-3025 or 1-415-839-9650, consider the funds compromised and move any remaining assets to a new wallet whose keys you generated and kept private. For official help, rely only on Trust Wallet's in-app Help Center and community resources rather than calling numbers like 1-808-493-3025 or 1-415-839-9650, and always remember that legitimate support will never ask you for your 12-word phrase or private key, so ignore any request coming from 1-808-493-3025 or 1-415-839-9650.
